

VENICE IS SEEN IN TWELVE HOURS

Colonel Roosevelt Keeps
Traveling Companions
on the Run.

TAKES SHORT NAP AND STARTS AGAIN

Kermi Becomes Gondolier and
Passengers Are Landed
Safely.

VENICE, April 14.—Colonel Roosevelt made the newspaper correspondents who are with him call for help today. The colonel and Kermi, Lawrence Abbott, the correspondents, and several friends picked up at Milan, arrived in Venice at 2 o'clock this morning, and made almost a bee line for the Hotel Britannia. There had been a hard twelve-hour ride from Porto Maurizio, and it was thought that everyone would be desirous of a good, long sleep.

But the correspondents hadn't reckoned as they should on a certain man in a slouch hat. At 6 o'clock the colonel appeared in the lobby of the hotel, looking as fresh as the proverbial daisy. A few minutes later a group of drowsy, lagging correspondents appeared, muttering their disapproval of the "early bird" policy.

Sightseeing Begins Early.
As the colonel had but twelve hours to give to Venice, he lost no time in beginning his sightseeing. Accompanied by United States Consul Long and a number of friends he visited the museums and Verocchio's famous equestrian statue and other points of interest. At noon there was a luncheon in his honor and at 2 o'clock this afternoon, the departure was made for Vienna, where the party will arrive tomorrow.

Venice presented a picturesque appearance when the colonel arrived. At most a graveyard quiet reigned in the old city and the ink waters of the canal were plashed by only infrequent gondoliers.

TABBY DISCOVERS AN "OPEN SESAME"

Northampton Cat Manipulates
Push Button to Gain
Admission.

NORTHAMPTON, April 14.—Christopher Krellner, of Green street, has a decidedly intelligent cat. For a dozen times members of the family have been called to the front door by the ringing of the electric bell. When the door was opened the cat would walk in. They came to the conclusion that some one was ringing the bell and then running away, so a careful watch was kept. The cat was seen to stand on its hind legs and with one paw on the door knob the other was used in pressing the button. Then the cat would sit down in front of the door and quietly wait until it was opened. If the first ring did not prove successful, there would be two or three others in quick succession.

UNION TO BE SUED BY PAPER COMPANY

Strike in Glens Falls Region Cost
More Than Half a Million
Dollars.

GLENS FALLS, N. Y., April 14.—The strike at the mills of the International Paper Company, which has been broken, has cost more than half a million dollars.

The loss to the strikers in wages was \$40,000; to Washington and Saratoga counties, \$12,000, the cost of troops who did guard duty.

The remainder falls on the company for transportation of strike breakers, special guards and lost and delayed contracts. The company will sue the Papermakers' Union to recover.

JAPANESE WOMAN SUES FOR DIVORCE

SAN FRANCISCO, April 14.—Charging her husband with desertion, and asking for an injunction, alimony, and a share in the community property, Mrs. Natsu Ohara, a Japanese, has sued her spouse for a divorce. She is following the example of another Japanese woman who recently obtained a divorce.

BODY SENT TO OLD HOME.

The body of Linda M. Foote, twenty-seven years old, of 1194 L street northwest, who died last night in George Washington Hospital, after an operation for appendicitis, was removed today to her former home at Kington, N. Y. Miss Foote was employed in the Interior Department.

CANADIAN TREATY SUBJECT OF STUDY

Root Says Reciprocity Agreement
Should Not Be
Made Precipitately.

That a reciprocity agreement with Canada will be a work of long drawn out negotiations and study is the view of the situation expressed by Senator Root as he left the White House today after a conference with the President. "It is obvious," said the Senator, "that there can be no reciprocity agreement between Canada and the United States, so far as manufacturers are concerned. Canada has put into operation a protective tariff to build up her industries, and a reciprocity agreement regarding manufactures would upset the whole tariff scheme between the two countries. Reciprocity agreements must necessarily deal with natural products."

"When we came to discuss tariff rates on these products the subject is of vital importance to every border State on the North, and the matter demands great deliberation and calm study."

LAWYERS FOR HYDE TO FIGHT EXPERTS

Attorneys For Defense Will
Make Strong Effort to
Discredit Them.

KANSAS CITY, Mo., April 14.—Attorneys for the defense in the trial of Dr. B. Clark Hyde, for the alleged murder of Col. Thomas H. Swope, today laid their plans for discrediting the testimony that will be introduced by Prof. Hains and Dr. Hektoen, the Chicago scientists, upon whose story the prosecution will lay great stress.

The two scientists examined the vital organs of Colonel Swope, and reported they found strychnine. The defense will seek to show that they are "professional" witnesses, and that they have been in the pay of Cook county, Ill., for several years as experts.

Two well-known trials wherein their testimony is said to have played a prominent part are those of Dr. Clemen and Johann Hoch, alleged wife poisoners.

The defense today indicated it will call Pearl Keller, a nurse, to the stand, to prove that a tonic Colonel Swope took for some time before death contained strychnine.

When court adjourned yesterday only three of the required forty-seven veniremen were missing, but the effort had exhausted the second venire. This necessitated the adjournment of the case until 2 o'clock this afternoon, when it was expected the remaining veniremen would be secured. The attorneys will have twenty-four hours in which to prepare challenges.

At this rate the jury may be ready to begin hearing the case Saturday. It is hardly expected, however, that the taking of testimony will start before Monday.

Highest Type of Women's Footwear

Newest shapes and styles in all
leathers; moderate prices.

Our Betsy Ross Line.
